

March 27, 2008 - Who wants to be a billionaire? (NBN-ZTE edition)

If you're against corruption (and want to have fun at the same time), you should play the game called Who Wants To Be A Billionaire Presents: NBN-ZTE (Reloaded). My wife forwarded the PPS file to me and I can't help but share it with all of you.

While I'm sure that whoever designed it won't mind my decision to disseminate his or her work, I hope that the person responsible for this game would contact me so that he or she will be properly credited.

While this was done in the spirit of (political) fun, this game can test your knowledge of current events in the Philippines, particularly the controversy surrounding the national broadband network (NBN) project.

Suffice it to say that I had a blast answering the questions. Modesty aside, I aced the test and I am now a "virtual billionaire."

How did you fare? Do let me know. Thank you for reading.
